SUMMARY

Frontend Developer with 3+ years of experience building scalable, high-performance web applications using React.js, Next.js, JavaScript (ES6+), HTML5, and CSS3. Strong expertise in component-based architecture, React hooks, state management, RESTful API integration, performance optimization, and responsive UI development. Experienced in translating Figma designs into production-ready interfaces.

SKILLS

- Frontend Technologies: **React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery**
- Javascript Concept : **Promises, Prototyping, Object, Array manipulation, Hoisting**
- React Ecosystem: **React Hooks, Context API, Routing, Styled Components, Lifecycle Unit Test Cases**
- State Management : **Redux, MobX, Zustand**
- Build & Testing: **Webpack, Babel, Jest**
- APIs & Architecture: **RESTful APIs, Component-Based Architecture, Micro-Frontend, Web Performance Optimization**
- Tools: **Git, Bitbucket, Jira, Figma**

WORK EXPERIENCE

Intelspire Technology

June 2025 - January 2026

Software Engineer (Frontend)

- Developed and maintained scalable frontend applications using **React.js** and **Next.js**, leveraging **React Hooks**, reusable components, **Micro-Frontend architecture**, and modern **JavaScript (ES6+)** concepts including **Promises, Hoisting, Prototyping, and Object/Array manipulation**
- Built responsive, accessible, and high-performance user interfaces using **HTML5, CSS3, and Tailwind CSS**, ensuring cross-browser compatibility and optimized rendering performance
- Integrated **RESTful APIs** and managed global/local state using **Redux**, improving application functionality, performance optimization, and reducing unnecessary re-renders

RedoQ Software Services Private Limited

December 2024 - June 2025

Software Development Engineer (SDE - I)

- Translated **Figma** designs into pixel-perfect, production-ready web and mobile UIs using **HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, and TypeScript**
- Developed modular and reusable components using **React.js, Next.js, jQuery**, and **Micro-Frontend patterns**, applying core **JavaScript concepts** such as **Promises, async handling, and efficient DOM manipulation**
- Implemented client-side routing, integrated **RESTful APIs**, and utilized **Redux** for predictable state management and improved UI reliability

Dgtalists Solutions Private Limited

January 2023 - December 2024

Software Engineer (Frontend)

- Implemented and enhanced user-facing features using **HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, and TypeScript**, focusing on usability, responsiveness, and interaction quality
- Optimized frontend performance and UI flows using strong **JavaScript fundamentals**, including **Object handling, Array methods, Prototypal inheritance, Hoisting, and jQuery-based DOM optimization**
- Refactored and scaled shared codebases using **React.js and Next.js**, ensuring cross-browser compatibility, maintainability, and adherence to modern web standards

EDUCATION

Gargi Memorial Institute of Technology

August 2020 - June 2023

Bachelor of Technology in Electrical Engineering

PROJECTS

Eduspire Global

June 2024 - October 2024

- Built a production-scale frontend application using **React.js** and modern **JavaScript (ES6+)**, following **Micro-Frontend architecture** to enable modular, scalable, and independently maintainable UI features with a component-based design
- Designed and developed reusable and maintainable UI components using **React Hooks**, managing application state with **Context API** and **Redux** to ensure predictable data flow and consistent user experience
- Optimized frontend performance by improving component structure, minimizing unnecessary re-renders, and implementing **unit tests with Jest** to ensure UI stability, reliability, and adherence to React performance best practices

Aparna Housekeeping

March 2025 - March 2025

- Translated **business and UX requirements into clean, responsive interfaces** using HTML, CSS, Bootstrap, and JavaScript.
- Focused on **performance, usability, and consistent interaction behavior across devices**.
- Delivered production-ready UI aligned with **modern UX and web standards**.

floorxpert

April 2025 - April 2025

- Developed a **responsive, production-ready website** using **HTML, CSS, Bootstrap, and JavaScript**, ensuring consistent UI across desktop and mobile devices.
- Translated **design requirements into clean, accessible, and user-friendly interfaces**, following modern UX and frontend best practices.
- Enhanced **user experience and performance** through optimized layouts, JavaScript-driven interactions, and cross-browser compatibility.

Digital Data Consultancy

December 2025 - January 2026

Tech Stack: Next.js, JavaScript (ES6+)

- Developed responsive web and mobile web interfaces using **Next.js**, building reusable and modular components within a **Micro-Frontend architecture** to enable scalable, independently maintainable UI features
- Implemented **server-side rendering (SSR)** in Next.js to improve SEO, initial load performance, and page rendering efficiency while ensuring seamless integration of **RESTful APIs** for dynamic content delivery
- Optimized UI rendering and overall web performance by refining component architecture, reducing unnecessary re-renders, ensuring cross-browser compatibility, debugging production issues, and writing **unit tests with Jest** to validate core UI components and application logic
