PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with 3+ years of experience building scalable, responsive web and mobile web applications using React.js, Next.js, JavaScript, and TypeScript, with strong focus on UI development, reusable component architecture, and performance optimization. Skilled in translating Figma designs into pixel-perfect interfaces using Tailwind CSS and Bootstrap, integrating RESTful APIs, and improving performance, SEO, accessibility, and cross-browser compatibility.

TECHNICAL SKILLS

- **Frontend Frameworks:** React.js (Hooks, Component Architecture, State Management), Next.js (SSR, SSG, Routing, Performance & SEO Optimization)
- **Languages & Core Web:** JavaScript (ES6+, DOM Manipulation, Event Handling, Async/Await), TypeScript, HTML5, CSS3 (Flexbox, Grid, Animations)
- **UI & Styling:** Tailwind CSS, Bootstrap, jQuery, Responsive & Mobile-First Design, Cross-Browser Compatibility, Design System Consistency
- **APIs, Performance & SEO:** RESTful API Integration, Dynamic Data Rendering, Component-Based Architecture, SEO-Friendly Markup, Accessibility, Code Refactoring
- **Testing & Quality:** Jest, Unit Testing, Component Testing, Debugging & Troubleshooting, Production Issue Resolution
- **AI Tools:** ChatGPT, Claude (AI-Assisted Development, Code Review Support, Debugging Assistance, Documentation)
- **Tools & Collaboration:** Git, Bitbucket, Jira, FileZilla, Figma, Design-to-Code Handoff, Cross-Functional Collaboration

TECHNICAL UPSKILLING | INDEPENDENT LEARNING

Independent Learning | February 2026 - Present

- Built backend fundamentals with Node.js and Express.js (REST API development, routing, middleware) along with MySQL schema design, joins, indexing, query optimization, relational data design, and database integration with REST APIs.
- Practised CI/CD using GitHub Actions, Bitbucket Pipelines, and Jenkins, covering automated build/test/deployment workflows, release processes, and deployment troubleshooting.
- Continuing hands-on practice in Linux, Docker, Kubernetes, Terraform, Microsoft Azure, AWS, DevOps practices, and cloud networking fundamentals, alongside ongoing React.js and Next.js frontend development.

WORK EXPERIENCE

Dgtalists Solutions Private Limited

Software Engineer (Frontend) | January 2023 - December 2024

- Delivered user-facing features using HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, jQuery and TypeScript with strong focus on interaction quality and usability.
- Optimized DOM manipulation and UI flows using JavaScript and jQuery, improving performance and responsiveness across browsers and devices.
- Refactored shared frontend codebases using React.js and Next.js, improving scalability, maintainability, and cross-platform UI consistency.

RedoQ Software Services Private Limited

Software Development Engineer (SDE - I) | December 2024 - June 2025

- Translated Figma designs into pixel-perfect, production-ready interfaces using HTML5, CSS3, Bootstrap, jQuery, Tailwind CSS, React.js, Next.js, JavaScript, and TypeScript for web and mobile web.
- Built modular, reusable components in React.js and Next.js, ensuring scalable, maintainable, and consistent UX across the platform.
- Integrated RESTful APIs for dynamic data rendering, improved UI performance and accessibility, and resolved production issues through systematic debugging and optimization.

FREELANCE EXPERIENCE

Intelspire Technology

Software Engineer (Frontend) | *Freelance* | June 2025 - January 2026

- Built and maintained scalable web and mobile web interfaces using React.js, Next.js, TypeScript, and JavaScript, delivering responsive, high-performance user experiences.
- Designed reusable UI components focused on usability, responsiveness, and cross-browser compatibility, contributing to a consistent product design system.
- Integrated RESTful APIs and debugged UI/production issues, improving application stability and user experience.

FREELANCE / PROJECT WORK

Digital Data Consultancy

Frontend Developer | *Freelance Project* | December 2025 - January 2026

- Developed responsive web and mobile web interfaces using Next.js, building reusable and modular components with clean, maintainable UI structure.
- Optimized UI rendering, performance, SEO, and cross-browser compatibility using JavaScript and modern frontend best practices.
- Debugged and resolved frontend production issues, ensuring reliable and scalable user-facing features.

Eduspire Global

Frontend Developer | *Project-based* | June 2024 - October 2024

- Built a production-scale frontend platform using React.js and modern JavaScript, supporting dynamic data rendering and modular, component-based architecture.
- Designed and developed scalable, maintainable, and high-performance UI components with strong focus on usability and code reusability.
- Contributed across the frontend development lifecycle, including UI design discussions, implementation, testing, and iterative improvements.

EDUCATION

Gargi Memorial Institute of Technology - Bachelor of Technology in Electrical Engineering | August 2020 - June 2023
Baruipur Government Polytechnic - Electrical Engineering (Diploma) | June 2017 - July 2020

LANGUAGES

Bengali - Native | English - Full Professional Proficiency | Hindi - Full Professional Proficiency | Japanese - Basic (Learning)
